

Website privacy statement

Protecting your privacy when processing personal data and safeguarding all commercial data is important to us. When you visit our website, we treat the collected personal data as confidential and, of course, in accordance with statutory regulations.

Collecting and processing data

When you visit our web pages, our web server saves the IP address of your Internet Service Provider by default. We also register the web page from which you arrived at our page, the date and duration of your visit and the type of Internet browser and operating system you are using. We use this data for statistical purposes, to diagnose server problems and to improve our Internet service.

This website uses Google Analytics

Google Analytics – a web analytics service from Google Inc. ("Google") – uses what are known as cookies, that is, text files that are stored on your computer and enable an analysis of your use of the website. The information generated by the cookie regarding your use of this website (including your IP address, which is, however, anonymised before being saved using the "anonymizeIp" method so that it can no longer be traced back to you) is transferred to a Google server in the USA and saved there.

Google will use this information to evaluate your use of the website, compile reports about website activities for the website operator and provide further services relating to the use of the website and the Internet. Google may also forward this information to third parties insofar as this is prescribed by law or if said third parties are to process the data on behalf of Google. Google will under no circumstances associate your IP address with other Google data.

You can block the installation of cookies by making the relevant setting in your browser software; however, be advised that if you do this, you may not have full access to all of the functions on this website.

In using this website, you give your consent to the data collected about you being processed by Google in the aforementioned manner and for the aforementioned purpose. You can withdraw your consent to the collection of data by Google Analytics with future effect by installing a deactivation add-on (<https://tools.google.com/dlpage/gaoptout?hl=en-GB>) for your browser.

Use of Siteimprove Analytics

This website uses Siteimprove Analytics, a web analytics service provided by Siteimprove GmbH. Siteimprove Analytics uses "cookies", which are text files placed on your computer, to enable analysis of website use. Information regarding your visit to this website (including the encrypted IP address of the user) generated by cookies is transmitted to a Siteimprove server in Denmark where it is then stored. Siteimprove uses this information to analyse website use and to create reports regarding website activity for the site owner. Siteimprove does not disclose this information to third parties. IP addresses are irreversibly anonymised before any collected data become visible in Siteimprove Analytics. You may prevent the use of cookies by selecting the appropriate settings in your browser. Please note, however, that in this case you may not have full access to all functionality of this website. By using this website, you consent to the processing of data about you by Siteimprove in the manner and for the purposes set out above.

Use of Google Maps

This website uses the "Google Maps API" from Google Inc. (Google) for the visual presentation of maps. When using Google Maps, Google also collects, processes and uses data regarding the use of map features by visitors to the websites. The terms of service for Google Maps can be found at [Terms of Service for Google Maps](#). For further information regarding Google's data protection and privacy policies, see: <https://policies.google.com/privacy?hl=en-GB>.

Use of Google reCAPTCHA

To protect its orders via internet form, the Kaeser Kompressoren SE uses the Google Inc. (Google) reCAPTCHA service. The query is used to distinguish whether input is made by a human or improperly by means of automated machine processing. The query includes sending the IP address to Google along with any other data that Google may require for the reCAPTCHA service. For this purpose, your input will be transmitted to Google and used there. By using reCAPTCHA, you agree that the recognition input you provide will be used for the digitisation of old texts and works. If IP anonymisation is activated on this website, your IP address will be shortened by Google beforehand within member states of the European Union or in other states party to this agreement via the European Economic Area. Only in exceptional cases will the full IP address be sent to a Google server in the USA and shortened there. Google will use this information on behalf of the operator of this website to evaluate your use of this service. The IP address sent by your browser as part of reCAPTCHA will not be merged with other Google data. For these data, the separate data protection policies of Google apply.

For further information regarding Google's data protection and privacy policies, see: <https://policies.google.com/privacy?hl=en-GB>.

Use and forwarding of personal data

For some services and information on our website (e.g. online applications, registration for newsletters or seminars, use of contact form), we need to obtain certain personal data from you such as your name, address or e-mail address. We only collect such data if it is necessary for processing your request. Your inquiries and the data and information contained therein will be forwarded internally to company employees or companies commissioned by us (e.g. trading partners) to assist us in processing your request. Your personal data are not passed on to other third parties. Your data will not be rented, leased or sold.

We store personal data to a limited extent for support and marketing purposes, in so far as legal regulations allow. You can object to the use and storage of your data at any time at info.ireland@kaeser.com.

As Kaeser Kompressoren SE is a global company, it may be necessary, for better processing of your case, for your personal data to be forwarded to local subsidiaries or sales partners whose head offices are outside the European Economic Community. Your personal data will not be forwarded to other third parties, unless we are obliged to do so under statutory regulations or under a court order.

Data security

We use technical and organisational security measures to protect your data against manipulation, loss, destruction and access by unauthorised persons.

Duration of storage

The duration of storage of personal data is based on the applicable statutory archiving periods or, if such periods are not defined, on internal policies. After the end of the archiving period, the data are routinely deleted, provided they are no longer needed to meet contractual obligations or to initiate new contracts, and/or we have no legitimate interest in continuing to store them.

Links to external websites

Our web pages include links to third-party websites. Please note that we have no influence over the contents and data security of external websites and the owners of these websites.
